Community-Centered Facility – Researching Viability

Research is continuing and an additional 2 more locations have been visited by the team. Cross Country near Stromsburg and Cedar Valley in Greeley. The 4 locations visited have resulted in a lot of ideas on layouts and feature options and informative on how each approached the project, needs, funding options, etc.

Please continue to pray for guidance for the group and that their efforts are steered towards the best path forward for our community. Look for more information to come in the weekly bulletins.
