Community-Centered Facility – Researching Viability

In parallel with the site visits that have been occurring over the past month, research has also focused on sources of funding. Initial meetings have occurred with 3 separate groups to evaluate various grants, corporate sponsors and partnerships and other options that will develop a funding plan that does not require this project to be funded solely by private donations from community members.

Please continue to pray for guidance for the group and that their efforts are steered towards the best path forward for our community. Look for more information to come in the weekly bulletins.
